

Mini K10 – Pin/Mifare

Unlock humanity with smart battery locks that have intuitive management systems.

The great thing about technology is that we have found smarter and better ways to protect our belongings and assets in specific locker environments. If safety and security are the first things on your priority list, then smart battery operated locks are the ideal locks for you.

Jam-packed with benefits programmed to deliver as many options as possible, these smart battery-powered locks provide a level of comfort and features that are not available in traditional locking systems - and don't get us started with the security features they can offer!
